

Nikolaus Zolnhofer

Software Developer

State your career goals and show how they align with the job description you're targeting. Be brief and keep it from sounding generic. Be yourself.

Experience

June 2018 - Current

Software Developer *Superbase Software Ltd*

Key Asset Manager, working alongside major clients to update systems and applications to 64-bit from inception to completion. Working to create VS Code Plugins, Static Gatsby.JS sites, and updating and optimizing WordPress installs for various customers.

Additionally expanded the companies knowledge base, as well as updating key internal software. Listening to feedback from users to improve our range of products

June 2018-Current

IT & Business Support *DK AVS*

Working both remotely and onsite to support the modernization and web integrations of a Electronics Repair Company. Including working extensively in React, HTML, CSS, ES6 JavaScript, and Redux. Latest project was to overhaul the companies entire ERP system.

June 2017 – August 2017

Food and Beverage Assistant *DoubleTree by Hilton*

Working both within my team, and alongside others to ensure the high level of customer experience expected from customers. Undertaking a diverse range of jobs, from taking orders and payments, making drinks and cocktails for customers, and closing the bar.

Education
